

Activity Instructions

Activity Name: Bridge & Tunnel

Study: Tubes & Tunnel

Objective for Learning: spatial relationships

The following supplies are needed for this activity:
1. A toy car, or truck

Instructions:

1. You and your child can sit on the floor with your legs straight out ,
 2. Then explain that their legs make a bridge and, when they lift up their knees, they make a tunnel.
 3. Then you can ask “What could move over our bridge and go under the tunnel?”
 4. You can also use the chant below using hand motions:
We lower the bridge and the truck drives over.
We raise the bridge and the shark swims under.
